

Stall Master produces 100% pine, all natural, horse bedding.

It is developed and made specifically to help you keep your horse healthy, happy and comfortable in the stall.

Stall Master's new state-of-the-art shavings manufacturing plant, located in central Florida, is the

most advanced drying and packaging facility in the Country.

It features:

- Advanced drying system with reduced emissions
- Vacuum screening for enhanced dust removal
- Proprietary separation system which removes undesirable pieces of bark, splinters and wood slivers
- 100% recycleable or reuseable shipping and packaging materials

America's Best 100% Pine Horse and Animal Bedding

Stall Master®

CLEANER | SAFER | HEALTHIER

Large flake - 10 cu ft expanded

Our large flake provides maximum cushioning and minimizes hock abrasion. The moisture content is precisely controlled to reduce hoof cracking and to provide optimum absorption with an all natural, fresh pine scent.

100% Pine, All Natural, Horse and Animal Bedding.

LARGE FLAKE - Shown actual size

Medium Blend - 10 cu ft expanded

A mixture of our large and small flake, our blend offers a great combination of performance and economy.

MEDIUM BLEND - Shown actual size

Pine Pellets - 40# Bag

Our pellet bedding will help keep horses healthy and comfortable in a low-dust, low-moisture environment. Made from 100% pine, our premium pellet bedding is economical, easy to pick and equine-safe.
